

»» Spill Berms (6" Collapsible)

Our most cost effective, versatile and compact berm solution

Hinge Bracket Berm

With the quickest set up time in the industry, the Hinge Bracket berm, is the ideal solutions for full or partial containment that requires a simple, fast and convenient solution. This berm can be folded up and transported from job site to job site. It's sleek, compact and easy to deploy and it is re-useable.

This solution outperforms its foam wall alternatives as it has a much smaller footprint and is so much easier for operators to deploy and re-use, over and over.

Advantages

- Built-in hinge brackets easily stays in upright position
- Brackets can be removed / replaced
- Quickest set up in the industry
- Portable, reuseable and repairable
- Durable and lightweight
- Compact berm design for efficient storage and transport
