

Plug N Dike Low-Temp Paste 10 oz

Product Description:

Plug N Dike paste instantly sticks to metal drums and fuel tanks. Instantly stops leaks, protecting workers and the environment. Low-temp mixture works in cold temperatures, down to -15 deg C. Bentonite Glycol mix provides excellent chemical resistance for fuel leaks. No surface preparation req.

Plug N Dike is a temporary plug. For a longer term patch, apply quick-cure epoxy over the top of the Plug N Dike plug. The Plug N Dike seals off the liquid allowing the epoxy to cure.

Features & Benefits:

- Low-temp mixture works in cold temperatures, down to -15 deg C.
- Bentonite Glycol mix provides excellent chemical resistance for fuel leaks.
- No surface preparation required, easily sticks to dirty or rusty surfaces.
- Premix is ready to use immediately.
- Primarily used for fuels and non-miscible solvents.
- Not recommended for plugging containers of antifreeze, acids, caustics, or oxidizers.
