

Medical Grade Absorbent Pads Product Data Sheets

Features

- Keep areas safe and dry.
- Individually packaged for ease of use.
- Durable Spunbond lint-free cover sheet.
- Fast Wicking Fine fiber bottom sheet.
- Up to 2 Liters per pad absorbency.

G28X58

Description

The pad has a bottom layer that is low slip microfiber construction with a tough, no lint, cover stock which can withstand prolonged foot and cart traffic.

This pad outperforms competing, old technology, meltblown. Unlike meltblown pads, the top sheet features no lint and is bonded over its entire surface.
