Easy To Assemble

This spill pallet has a generous working area of $2.5m^2$ for a single IBC caged container. The top platform which is detachable features hand insert and holes for inspection and pump insertion. Please note that the spill pallet should not be used without platform and supports in place.

The spill pallet can be stacked which makes them very efficient for both handling and delivery when not loaded. Made from UV–stabilised PE, they are fully recyclable and chemically resistant.

The spill pallet is compatible with most forklifts and pallet trucks and the sump capacity meets European and US legislation.

Key features

- Compatible with most forklifts and pallet trucks
- Durable removable platform
- Capacity meets and exceeds UK, European and US regulations
- Fully recyclable, chemically resistant, UV–stabilised PE
- Platform with hand insert and inspection holes for inspection and pump insertion

Notes

- Remove IBC drum and empty sump before moving
- Use for static spill containment
